PREFACE

The goal of education is the advancement of knowledge and the dissemination of truth. Education is the power to think-clearly, the power to act well in the world's work and it is the power to appreciate the life.

**“Education breeds Confidence,
Confidence breeds Hope,
Hope breeds Peace.”**

In the globetrotting of the pioneering of supremacy in the field of edification our venture of keeping the values conjecture, conveyance , decorum, demeanor, technical implementation and amelioration musing word and manoeuvre continues.

**Secretary and Correspondent
Rajaji Vidyalaya(CBSE)**

THE ROLE OF TEACHERS:

The teacher is the pivot of the society in bringing about a favourable change among the new generation of students, based on the educational approach of the CBSE. The 52 teachers of our Vidyalaya teach from their hearts, not merely from the books. They render service as instructors, guides, mentors, counselors and care-takers, playing a parental role, throughout. Among the 52 teachers, 27 teachers are trained post-graduate teachers and the remaining 25 teachers are trained graduate teachers. The quality of education depends on the quality of competence of teachers. All the teachers inculcate a value based education with the emphasis on creating self- awareness, empathy, critical thinking, creative thinking, decision making

CONCLUSION

“Success is the sum of small efforts repeated day in and day out. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do”.

“The goal of true education is intelligence plus character”.

I hope that we have fulfilled the above words. I have explored my possible in great depth and have come to a conclusion. As magazine promotes media and performing arts, it gives me a wider target.

I thank the supportive management for volunteering their time to serve the school community, not only approving funds to facilitate an improved learning experience for our students, but also being thoughtful and sensitive to the needs.

I am sure it will help to reveal the active, cute and gifted pupils and teachers will unite people of different age.
